3. Package contents:

1 RGB Lamp
1 User manual

4. Mounting :

Screw the RGB Lamp in a E27 (EU) or E26 (USA) bulb holder type. Bulb holder switch becomes the inclusion, exclusion and first color choice button.

5. Installation :

a. For inclusion

1. Put MyVirtuoso Home gateway into "inclusion" mode and turn the lamp on.

This one will flash in blue and will be automatically included. In this mode you can change brightness and turn ON/OFF the device by remote control.

2. Successively, switch ON and OFF the lamp 2 times. It will become violet for about 2 seconds, then will change color for 15 times.

To choose your favourite color, power the RGB Lamp OFF when it appears.

Turning it ON again, the light will maintain the chosen color.

3. Now you can change RGB Lamp color from APP, choosing between over 16,000,000 possibilities.

b. For exclusion

Put MyVirtuoso Home gateway into "exclusion" mode, then toggle the switch OFF and ON 3 times.

If the exclusion is successful, the RGB Lamp will become yellow for a few seconds, then will remain white.

6. Operation

Touch the Menu button (the 3 dots at the top right. Choose now "Device settings", then look for "Lampada RGB" entry.

a) To turn ON/OFF the lamp, touch ⏻. If this button is illuminated, lamp is ON. Vice versa, lamp is OFF.
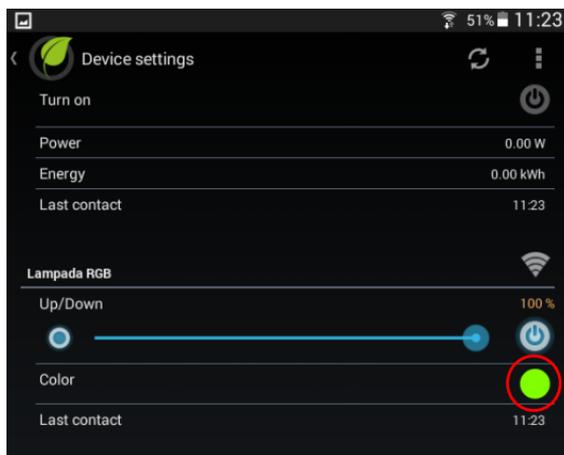

Lamp is ON
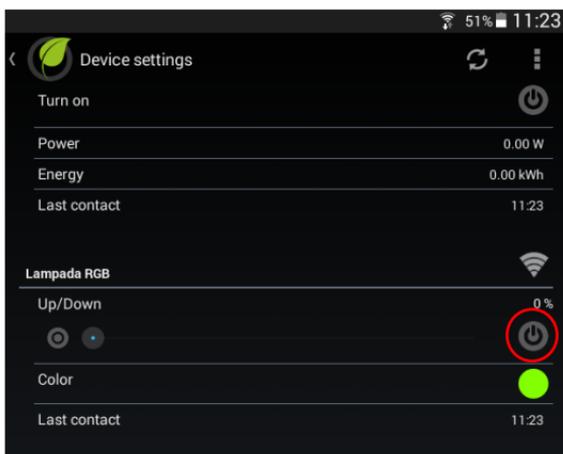

Lamp is OFF

b) To change brightness:

> **1-** look for "Up/Down" entry. Touch the dot on the left of the toolbar to activate the "Up/down" changes;
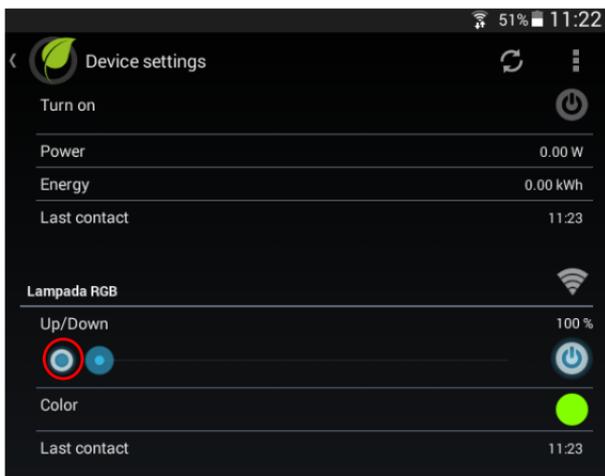

**2-** change brightness at will moving the dot on toolbar.
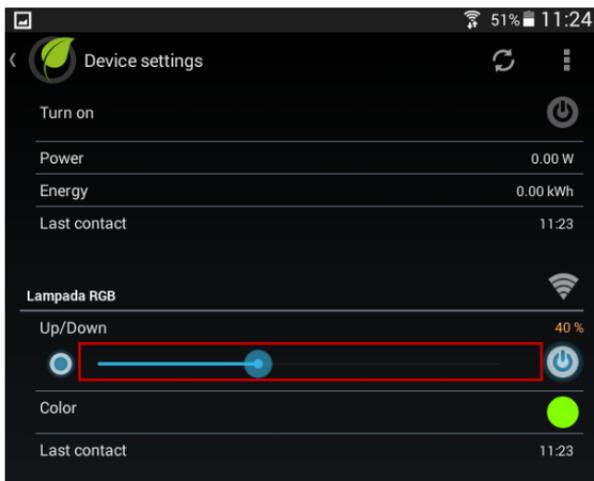

c) To change color:
